## How could this event be improved?

5 responses

All recommended improvements from last year were considered and the flow was a lot better. Sorors didn't have to wait for me supplies. One recommendation is to request the heat be turned down knowing we would have a lot of bodies in the cafeteria.

It was very organized

Excellent set up

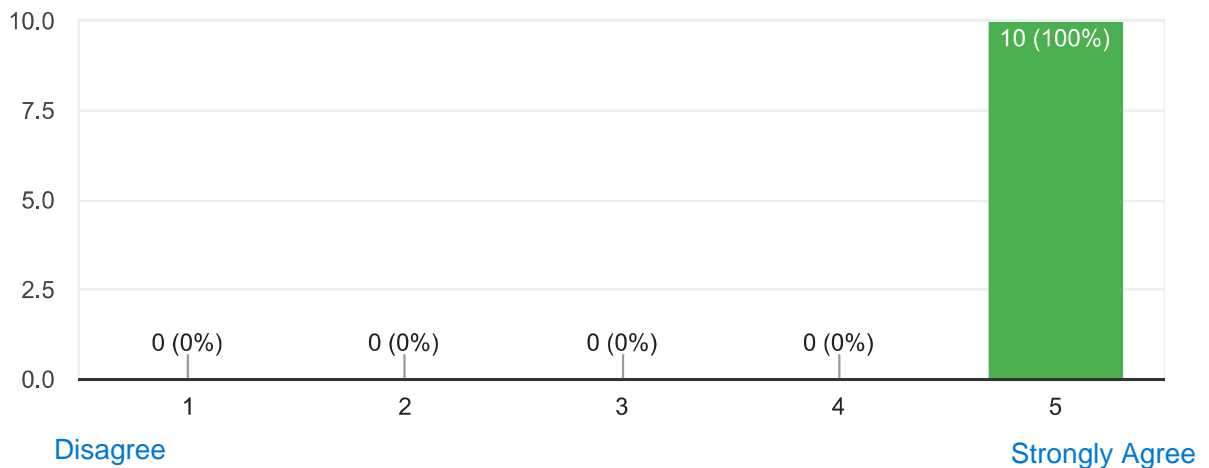

Recommend bags are counted during the packing event, and ta set amount are transferred immediately to the conference room to clear space and ensure no double counting occurs. Otherwise event went very well.

Great job. We were extremely productive!

No

Very well organized

Love that families were invited to participate especially little ones. This event was well organized and extremely engaging. It was a great opportunity to meet new Sorors also while working.

Great event!

It is always good to fellowship and serve those in need.

Thoroughly enjoyed this service project with my sorors! Looking forward to the next time.

It was great seeing sorors working together for a common goal of helping disadvantaged children have food for the weekend.
